

Silent Images®

2023 Annual Report

It is hard to believe that it has been 18 years since I found myself sitting in the shade under a tree in Sudan holding my camera with a burden to use it to serve. 2023 was a year filled with many new moments with the same burden to serve with our cameras. This year there were new ministries, new countries and new staff. Although the changes and new initiatives excite us, we are most energized by the things around here that do not change. It is these quiet moments of impact that seem to happen regularly. The smiles we exchange with a mother as she shares her story, the thrill of seeing our film raise thousands of dollars at a banquet or the renewal of faith and hope from a viewer who had grown weary from the daily headlines. These moments are what keeps us grounded and motivated during times of change. Thank you for the role you played in providing these countless moments throughout the year. Whether you prayed, donated or just offered words of encouragement to us, we are grateful for your support this year!

David Johnson

For years, we struggled to convey the love we have for our students via visual media. Silent Images was able to perfectly encapsulate our mission in a professional and authentic way. Many current and potential supporters have been moved to support our cause after watching the video!

Hispas of Change - Guatemala

It has been Cakeable's joy to entrust our storytelling to Silent Images. From the planning process to the interviews, filming, and production, it is apparent that the SI team is driven by a passion to honor & portray God's image in every person on the screen.
